Problem
FOS servers for the GSFC EOC will arrive the week of 4/1/96. There is no power in the EDS "burn-in" room to support the burn-in, installation, and configuration of the systems.

Proposed Solution
Use the only available power outlet in the computer room floor. This requires setting up the equipment in computer room space approved by Jack Eisenstein. Once configured, most likely 5/15/96, they will be removed. This has already been coordinated with Jack.
